

FACE SHIELDS

- ✓ Make Personal Protective Equipment (PPE) in America Act Compliant.
- ✓ All raw materials and components are sourced and manufactured in America.
- ✓ Made of thick, clear, and anti-fog materials designed to cover the face and eyes.

HIGH QUALITY PERSONAL PROTECTIVE EQUIPMENT

The personal protective equipment (PPE) face shield is made of 0.01” thick polycarbonate or 0.008” thick polyethylene terephthalate (PET). Face shield is 10” x 11” with a 1” foam headband and elastic band or reusable glasses frame and clips. Designed to cover the face and eyes. Infrastructure Investment and Jobs Act (IIJA) compliant. Reusable.

Created with pride by Americans who are Blind or have other Severe Disabilities™
