

JAWS®

Just Add Water™ System

- ✓ **Effective:** Each JAWS refill pod contains super-concentrated cleaning solution that has the power to remove dirt without leaving residue, streaks or haze.
- ✓ **Environmental:** When your first spray bottle is empty, you simply refill with water, reload a new pod and reuse. JAWS refill pods are also recyclable.
- ✓ **Safer Choice*:** JAWS products leave your home spotless and safe for everyone, including children and pets. *All JAWS products except the Disinfectant Cleaner are Safer Choice.
- ✓ **Convenient:** There's no pouring, no spilling, and no measuring like conventional refill bottles. And our refill pods are so small you can always find room to store them.

Recyclable pods and reusable bottle = less plastic waste!

REFILL, RELOAD, REUSE

Our reusable, refillable, JAWS bottles come with concentrated refill pods to make eco-friendly cleaning products that are effective, yet biodegradable, and clean without streaking or leaving a residue. When your first spray bottle is empty, simply refill it with water, reload, and reuse! Empty/lighter bottles leads to minimized fuel consumption when shipping, reducing our carbon footprint. The JAWS system also saves 83% of plastic versus traditional spray cleaners!
